## Crane Track\*

CT	8 S F	StraightTrack, 8ft, scissor
CT	5 S F	StraightTrack, 5ft, scissor
MT	C100	StarterTrack

\*Prices are available on request

Our straight tracks are available in different lengths and a width of either 62cm (dolly) or 100cm (crane). Beside the listed lengths we can manufacture any lengths up to 7m40. Customized track width is also possible.

The tracks are made of aluminum, lightweight and easy to carry (no more than 10 kg). No welding has been done, all parts have been assembled by high quality stainless steel bolts and a special gluing process.

Curved tracks come as 62cm wide tracks.

Sleepers are available in 3 major kinds: fixed, scissor and Centerfold\*

\*see dedicated brochure for Centerfold tracks
